## Compart Press Release

DocBridge Pilot 3.0 is “Product of the Year 2013”

February 6, 2014

### **[Böblingen, February 6, 2014] – DocBridge Pilot 3.0 is “Product of the Year 2013”**

The readership of “Postmaster Magazin” are people engaged in complex document processing, document management and information logistics. The overwhelming majority of these readers selected DocBridge Pilot 3.0 as the “2013 Product of the Year” in the software and commodities category.

For companies faced with complex document processing, DocBridge Pilot 3.0 is easily integrated into any existing IT infrastructures without upstream application changes thereby protecting existing investments. The DocBridge Pilot 3.0 multi-channel solution separates input data streams from the output medium. It acts as a Digital Document Hub where all systems and “silos” can send output which then is optimized and then delivered by channel of choice, including archiving, physical and electronic channels.

Readers surveyed were particularly impressed with the new features that make the solution even more user-friendly and powerful. Drag and drop, for instance, enables fast and easy setup of input processing jobs (by GUI), allowing even users without extensive programming knowledge to configure new processes. Add to that a modern Web interface that is even more closely aligned with a company’s output management workflows. It affords production managers a better overview of jobs, allowing them to react more quickly in the event of disruptions.

Fully scalable, this Compart product is used by major companies such as the Bertelsmann subsidiary Arvato, LVM insurance, and Swiss Post Solutions (SPS), a subsidiary of the Swiss Post Office.

Caption: The “Product of the Year” readership survey is conducted annually, with categories varying from year to year. In 2013, all IT and product solutions that make modern document and mailing management possible were combined in the software and commodities group. The “Postmaster Magazin” is a magazine and comprehensive forum in the DACH-region (Germany, Austria, Switzerland) for document management and information logistics, digital printing and incoming and outgoing document processing.

**Background information on Compart**

Compart is a leading international supplier of multi-channel solutions for document processing and management. The company, headquartered in Germany, has been a market presence for over twenty years and has subsidiaries in Europe and North America as well as a network of partners in Latin America.

Compart helps companies boost the efficiency of their operations with solutions for quick and flexible processing of high-volume data streams and document quantities. The scalable and platform-independent DocBridge® family of products, designed, developed and supported by Compart, allows documents to be output anytime, anywhere, digitally or on paper.

The company enjoys a worldwide reputation as an innovative market leader as well as a developer of professional and leading-edge solutions in the field of document management. More than 1,200 customers in 42 countries rely on Compart solutions, in industries that range from finance, insurance, and retail to printers, telecommunications, utilities and healthcare. Furthermore, Compart is a technology partner for numerous leading manufacturers in the industry.
